13th March 2020

Dear Patient

As a result of the Coronavirus/Covid19 pandemic we are looking at the provision of patient care at Willow Green. To reduce the risk of patients and staff being infected we will be drastically reducing face to face and routine appointments with Doctors and Nurses. This will start next week and we will not be accepting any face to face appointments without telephone triage first being carried out with a clinician. These can be booked by contacting the surgery. More details will follow.

We thank you for your understanding and realise this is a drastic change in our practice but these are unprecedented times.

Regards

Willow Green Surgery
